
THE HARVARD BIOLABS STOCKROOM

Biolabs Basement—B060
Biolabs Bldg - 16 Divinity Ave

Phone: **617.495.2385**

Monday - Friday: **8:00 am - 4:50 pm***

*Closed daily 12:00 - 1:00 pm

The Harvard BioLabs Stockroom

Biolabs Basement—B060

The current Harvard Biolabs Stockroom was created in collaboration with Operations and Facilities at FAS and VWR International to provide researchers with quick, convenient access to the most frequently ordered laboratory supplies, enzymes and biologicals. Products are sourced from VWR core suppliers, as well as other popular manufacturers such as Qiagen, NEB, Falcon and Corning.

- Researchers using Harvard funds for payment are eligible to purchase from the Stockroom.
- To ensure accurate billing, shoppers should be prepared to provide identification and up-to-date grant information at the request of Stockroom personnel.
- All non-stockroom orders should be placed on-line via HCOM or by calling VWR at 866-229-9967
- **“Call Ahead”** -The Stockroom offers walk- in service. However, you may want to “call ahead” to 617-495-2385 so the VWR associate can ensure availability of the products requested.
- VWR will provide a receipt detailing all items on the order. Only products in stock will be included. Back orders will not be accepted. Backordered products should be ordered as a new transaction when stock arrives. Check with VWR at 866-229-9967 or HCOM for availability.
- VWR manages the 190 and 200 proof tax free ethanol program for Harvard University. Ethanol can be purchased by the gallon(s) or pint in the Stockroom.
- **The on-campus stockroom is intended to meet immediate needs for less- than-case quantity products; for larger orders it is recommended purchases be made on line via HCOM, by calling 866-229-9967 or by e-mailing harvardsupport@vwr.com.**

Business Hours:

8 AM – 4:50 PM Monday—Friday, EST
Closed between 12:00 pm – 1 pm
Closed Saturday and Sunday

Returns:

Applies to all products received from VWR (not limited to Stockroom purchases)

Product may be returned to the Stockroom in original, unused condition with a copy of the Purchase Order or receipt

Or, call 617-495-2385 for return authorization

Product pick up from your lab within 2 days

No restocking charges

Frozen biological products are non-returnable

Bottle Top Vacuum Filter, Syringe Filters, Vial—Scintillation/Shell

BOTTLE TOP VACUUM FILTER UNITS, STERILE, CORNING

Vacuum filtration of tissue culture solutions, biological fluids, or other aqueous solutions. Units feature stable profile receiver bottle with easy grip sides and angled hose adapter to minimize tipping. Receiver converts to a storage bottle. Four membrane types: polyethersulfone (PES), cellulose acetate (CA), cellulose nitrate (CN), and nylon (NY)
