### Purpose
The Budget and Actuals Comparison dashboard is used to provide the ability for Tub financial officers, budget managers, planners and department managers to identify and manage income, expense and non-operating account variances as compared to the developed budget or forecast throughout the fiscal year.

Budget variance analysis activities are required to be performed at many levels of the organization whether that is across multiple schools or units, within a department, or for an individual program. In order to provide this flexibility, the Budget and Actuals Comparison dashboard offers budget and actuals data for multiple segments and levels of the Chart of Accounts. As a result, the dashboard is intended to meet the needs of the diverse financial audience across Harvard.

**Important Note:** This dashboard only pulls the last two years of budget/forecast data.

### Questions Commonly Answered by this Dashboard
- What variances exist in both dollar and percentage form between actuals and budget for the following scenarios?
  - Current year-to-date actual to current year-to-date budget or forecast.
  - Current year-to-date actual to current full year budget or forecast.
- What amount of the budget remains unexpended or has been overspent?
- How does the current YTD actuals income and expenditures compare to prior year actuals at this same point-in-time?
- For the last closed month do income and expense actuals deviate from budgeted activity for this month?
- What areas of the organization are contributing most significantly to the variances that exist?

### Access
Log into OBI at [https://obi-prod.cadm.harvard.edu](https://obi-prod.cadm.harvard.edu). Select Dashboards-> FIN-Core> Budget and Actuals Comparison.

### Pages found on this Dashboard
- **Role Selection:** Select your role in order to rend the dashboard.
- **Budget and Actual Summary** - A summary view of recent two years information on Operating Budget, Actuals and their variance at Tub/Org/Tera Object level.
- **Budget and Actual Detail - Org and Object** - View of recent two years information on Operating Budget, Actuals and their variance at Tub/Org/Object level.
- **Budget and Actual Detail - Activity and Object** - View of recent two years information on Operating Budget, Actuals and their variance at Tub/Activity/Object level.
- **Budget and Actual Detail - Fund and Object** - View of recent two years information on Operating Budget, Actuals and their variance at Tub/Fund/Object level.
- **Budget and Actual Detail by All CoA Segments** - View of recent two years information on Operating Budget, Actuals and their variance at all CoA level.
Role Selection

The first tab you will encounter is the Role Selection tab. Select the appropriate role (security profile) you will use to execute the dashboard from the Role Selection page and click the Apply button.

If you do not click the Apply button you will get "No Results" when you attempt to render the dashboard. Please note that if you only have one "User Role Choice" you must still select it and click Apply.

Prompts

The prompts are the same across all dashboard pages.

- This dashboard is designed to calculate the columns for End Period Prompt selection from the current and prior fiscal years only.
- *End Period and *Tub are required prompts for this dashboard and must be complete or else the dashboard will not render.

#### Tips for Using this Dashboard

- This dashboard replaces the CREW Budget Variance Report.
- There are other columns that can be added to this dashboard by using the right-click.
- Only Expense and Revenue object codes (T400, T600, T901) are displayed on the dashboard.

Budget & Actuals Comparison

User Roles: Tub and Org-level budgeteers, Tub and Org-level Financials Offices and Analysts,
University Budget Office Staff
Last Updated: June 24, 2017

- FY Operating is the operating budget for the full Fiscal Year of period chosen.
- Prior FY Operating/ Actual is the operating budget/ actuals for the FULL prior Fiscal Year of period chosen.
- YTD Actual/ Operating is the Year To Date actuals/ operating budget, THROUGH the period chosen.
- Prior YTD Actual is the actuals THROUGH the selected period of Prior Fiscal Year.
- Month Operating/ Actual is the operating budget/ actuals only FOR the period chosen.
- $ Variance is the difference between the budget amount and the actual amount.
- % Variance is the percentage difference between the budget amount and the actual amount.
- Only Operating and Forecast Budgets are available on the dashboard because Corporation is redundant to Operating, and Preparation and Target are no longer populated. Forecast Budget displays Q2 Forecast.
